

## Special applications & tool designs

*In addition to our line of standard Roll-A-Finish® tools for IDs and ODs, Cogsdill offers solutions for burnishing virtually any part configuration.*

## Special applications & tool designs

In 1993 Cogsdill Tool Products acquired The Madison Microller® Product Line. With the combined experience of over a century of designing and manufacturing burnishing tools and machines, Cogsdill is unquestionably the world leader in special burnishing tool designs and applications engineering.

A few examples of our thousands of special tool designs are shown below:

Internal taper tool

Flat surface tool

Where part size varies and surface finish is the primary requirement, expanders, contractors, and compensating tools produce consistently excellent surface finishes.

Expander tool

Air-actuated compensating tool

*Send us a part print or detailed sketch and request a quotation.*
